

Property Mortgage data is ideal for a diverse selection of offers, ranging from home improvement to mortgage refinances!

**List Type:**

Consumer

**List Source:**

County recorder & assessor records

**List Maintenance:**

Re-built bi-monthly

## Summary Description

BB Direct's comprehensive Property Mortgage database is sourced from county recorder and assessor records. It is comprised of more than 51 million parcels, which represents more than 45 million U.S. households.

Enhanced with a variety of demographic data, this database enables you to pinpoint the type of homeowners you want to reach while screening for potentially less responsive consumers.

## Available Selects

- |  |                         |
|--|-------------------------|
| Census Median Income                   | Lot Size                |
| Dwelling Type                          | Loan Amount             |
| Gender of Primary Owner                | Loan Date               |
| Phone Received Date                    | Loan Interest Rate Type |
| Record Receipt Date (Publication Date) | Loan Lender Type/Name   |
| Telephone Number                       | Home Assessed Value     |
| Owner Occupied                         | Home Market Value       |
| Available Home Equity                  | Length of Residence     |
| Lendable Home Equity                   | Loan to Value           |
| Home Size                              | Year Built              |
|  | <i>...and more!</i>     |
